POSTAL CODE —

WHAT IS IT?

The postal CODE, composed of six characters, is a permanent part of your postal address. In urban areas, it contains enough information to determine the destination of a letter right down to one side of a city street between intersections, and sometimes even further.

The CODE is composed of both letters and numbers, in the form of ANA NAN, where "A" represents a letter of the alphabet, and "N" a number. There is a space separating the first three characters, the Area Code, from the last three.

In urban areas, the Area Code describes an area roughly the size of 25 letter carrier routes. The last three characters denote a very small and easily-defined section within the area described by the Area Code. These characters can specify one side of a city block, an apartment building, an office building or a large firm or organization which does considerable business with the Post Office. They can also denote a service from a post office or postal station — rural route, general delivery.

In rural areas, the postal CODE indicates a specific post office.

The postal CODE will facilitate the sorting of mail, especially as mechanized sorting machines have become necessary to cope with growing mail volumes.

"BUYER BEWARE"

Special Notice

The Vernon Company has been publishing city directories for Ontario communities for more than eighty years, beginning with the Guelph directory in 1894. We have worked diligently to establish a reputation in the business community for reliability and honesty in our dealings. Our policy is not to ask for payment in advance, except in the case of new subscribers or telephone orders.

From time to time other firms appear on the scene selling listings, subscriptions and advertising space in directories of various kinds. Some of these are legitimate, but others, often securing advance payments, publish only a token directory or none at all. In addition, solicitation for directory listings, purposely designed to resemble invoices, are sometimes mailed to business firms and are passed for payment as the result of insufficient checking.

We urge our subscribers to take the following steps to protect themselves from fraudulent directory schemes:

1. Before signing a contract for directory service, listings, or advertising space, check the identity and reputation of the publisher; if in doubt, contact your local Chamber of Commerce or Better Business Bureau.

2. Be especially wary of contracts which require payment with the order.

3. Be sure to read the small print before approving an "invoice" which is really only a direct mail solicitation for directory which may never be published.

PREFACE

The Publishers in presenting their fifth edition of the TOWN OF LINDSAY directory, thank the citizens in general for the liberal support and co-operation given.

For the third time, postal codes have been included in the street directory (pink section). They are prominently located after each street intersection description and shown in italics.

This year once again the names are listed in order of telephone numbers. This Numerical Telephone Directory is printed on blue paper and we feel that it will greatly increase the usefulness of the directory to our subscribers. Telephone numbers are also listed by house address in the Street Directory.

Our estimate of the population of the Town of Lindsay and the outskirts, is 14,000

VICTORIA COUNTY

POINTS OF INTEREST

Champlain's Portage—Highway 48 is Portage Rd. from Bolsover through Kirkfield. Champlain's party, including Etienne Brule, took this route while exploring in 1615.

Old Monck Road—was built as a military road after the war of 1812-14 to provide an overland route from the Ottawa River to Lake Simcoe and Old Yonge St. You may travel from Kinmount to Sebright on it. (Now Hwy. 503).

Lift Locks—at Kirkfield, where a boat may be safely lifted 48½ feet to continue on the Trent Waterway System.

Falls at Fenelon Falls—named after a Suplician missionary, first settled in 1841.

McDonnell Park, Lindsay—here a plaque commemorates the founding of Lindsay by William Purdy and his sons who built a saw and grist mill on the Scugog River in 1828.

125 year old church—at Fenelon Falls over 125 years ago an Angiican Church was built.

Historical plaques at Fenelon Falls—dedicated to James Wallis who in 1834, with Robert Jameson, built a sawmill and later a grist mill where Fenelon Falls stands today. About the same time John Langton built Blythe House near Fenelon Falls.

Sturdy Sycamore Trees—In Lindsay are the only Sycamores growing this far north in all of North America.

Reforestation—of interest to the conservationist is County Reforestation taking place in Somerville, Laxton and Emily Townships.

Bobcaygeon—Monument commemorating the construction of the first Bobcaygeon Lock in 1839.

County of Victoria Museum in Lindsay, and a municipal museum at Fenelon Falls. A good collection of pioneer tools and furniture gathered in their vicinity.

Parks—There is an excellent Provincial Park at Omemee, and also between Kirkfield and Coboconk, a County of Victoria Park near Bolsover, another park in Mariposa and both park and pool in Verulam Township. Near Fenelon Falls on Cameron Lake is another pleasant Tourist park. Kawartha Park in Lindsay offers picnic grounds and pool. There is also a public park at Coboconk.

Landing fields for light aircraft at Lindsay and Bobcaygeon—Lindsay airport with paved runway and night lights . . . can service up to DC 3 size.

VICTORIA COUNTY

In the part of Ontario known as the Kawartha Lakes, you will find the history and romance of nearly 350 years of Canada.

Samuel de Champlain first discovered its beauty in 1615, when the Courier de Bois portaged through its dense forests and paddled and fished its lakes and streams.

Victoria County is still richly endowed with nature's most precious gifts — a year round playground with picturesque lakes and woodlands, rolling hills, farm country and sunny beaches.

Victoria County is accessible from east or west by Highway No. 7 which can be reached from Highway No. 401 or Highway No. 12 at Whitby or Highway No. 35 which travels the length of the county from Newcastle on Lake Ontario in the south to Haliburton and Lake of Bays in the north.

LINDSAY--County Town of Victoria

ALPHABETICAL DIRECTORY

LINDSAY
1981

EXPLANATION

1. The Christian name appearing alone in brackets is the name of spouse.
2. In some cases the designation, widow, has been omitted by request.
3. Names between borders are those of firms which subscribe to or advertise in this City Directory. Names in capital letters are those of proprietors, partners or executives of these firms.
4. Business firms which are individual proprietorships or partnerships are indicated by listing the names of the owner or partners in brackets: Plaza Groceries (John B. Scott, Wm. Noble). Conversely, a firm name in brackets after an individual's name indicates that he is an owner or partner in the firm.
5. The householder or head of the house (owner or tenant) is indicated by h preceding the street address. Other members of the family, roomers and boarders do not have this designation. To determine whether the householder is owner or tenant, refer to the pink section, where home ownership is indicated by an asterisk (*).
6. The information in this directory has been gathered from original sources and the Publishers have made every effort to ensure completeness and accuracy. They cannot guarantee the complete absence of errors and assume no responsibility therefor. You are requested to draw any inaccuracies to the attention of the Publishers so that corrections may be made in the next edition.

NOTES

STREET DIRECTORY

LINDSAY 1981

NOTE: The asterisk (*) preceding a householder's name indicates that we have received information that the house is owned by some member of the family. The Publishers have made every effort to ensure completeness and accuracy. They cannot guarantee the complete absence of errors and assume no responsibility therefor. You are requested to draw any inaccuracies to the attention of the Publishers so that corrections may be made in the next edition.

The profession, business, etc., of individuals and firms are only given at their respective places of business. To find the occupation of the householder, refer to the Alphabetical list of Names.

Telephone numbers, as supplied to us during our enumeration, are shown after names.

Postal Codes have been included in the street guide (pink section). They are prominently printed in italics after each street intersection description and apply to all addresses in the block following.

THE PHONE

Most of us will spend two years of our lives on the telephone. They are not likely to be the best two years. Your phone rings. You pick it up, say *"hello,"* and a gruff voice barks, *"who's this?"*.

You place a call.

Someone on the other end of the line answers, *"one moment please"* — and you sit there — three minutes before anything else happens.

You try to call Jones.

His office asks, *"May I tell him who's calling?"* before they'll admit he's in.

Another irritant: *"What is this in reference to?"* You might break that logjam by saying it's about his wife's gambling debts.

Maybe the all-time crusher, is when you answer your phone to be told Mr. Smith is calling and will be right with you. Then you sit there, seething, for another three minutes before Smith comes on. The telephone is one of life's miracles.

With a little thoughtfulness, we could make it one of life's blessings. Worth trying, isn't it?

NOTES

when to stop advertising?

Advertising should be stopped —

When you expect to go out of business.
When there is nothing about your business that people ought to know.
When you don't want new customers.
When people never become dissatisfied with one firm and go to another.
When the public stops being born, stops dying, stops forgetting.

In other words when a firm is coasting it's generally going down hill.

POSTAL CODE —

WHAT IS IT?

The postal CODE, composed of six characters, is a permanent part of your postal address. In urban areas, it contains enough information to determine the destination of a letter right down to one side of a city street between intersections, and sometimes even further.

The CODE is composed of both letters and numbers, in the form of ANA NAN, where "A" represents a letter of the alphabet, and "N" a number. There is a space separating the first three characters, the Area Code, from the last three.

In urban areas, the Area Code describes an area roughly the size of 25 letter carrier routes. The last three characters denote a very small and easily-defined section within the area described by the Area Code. These characters can specify one side of a city block, an apartment building, an office building or a large firm or organization which does considerable business with the Post Office. They can also denote a service from a post office or postal station — rural route, general delivery.

In rural areas, the postal CODE indicates a specific post office.

The postal CODE will facilitate the sorting of mail, especially as mechanized sorting machines have become necessary to cope with growing mail volumes.

WHAT'S A

"WHO CALLED"?

(BLUE SECTION)

USE IT DAILY TO....

1. Identify callers who leave phone number only.
2. Identify as business or residential.
3. Decide whether to return call, once name of caller is learned.
4. Identify callers who leave name and phone No. but not Company name.
5. Obtain name of all firms operating under same phone no.
6. Get out pertinent file prior to returning call.
7. Ascertain correct name and address on poorly written or misspelt messages.
8. Decode "blind" telephone numbers.
9. Determine name and address from classified Ads.
10. Authenticate phone solicitations. Ask for phone number, then verify.
11. Track down full personal data from the slimmest lead – a telephone number.

Interruptions . . .

When you are exasperated by interruptions, try to remember that their very frequency may indicate the valuableness of your life. Only the people who are full of help and strength are burdened by other people's needs. The interruptions which you tolerate are the credentials of your indispensability. The greatest condemnation that anybody could incur — and it is a danger to guard against — is to be so independent, so unhelpful, that nobody ever interrupts you, and you are left comfortably alone.
